**RESOLUTION ON THE REPORTS OF COMMISSIONERS OF  
DIVISIONS ON THE WORKING OF DISTRICT BOARDS IN  
BENGAL DURING THE YEAR 1920-21.**

**GOVERNMENT OF BENGAL.  
LOCAL SELF-GOVT. DEPARTMENT.**

**LOCAL SELF-GOVERNMENT.**

CALCUTTA, THE 1ST MAY 1922.

RESOLUTION No. 2015 L.S.-G.

READ—

The reports of Commissioners of Divisions on the working of District Boards in Bengal during the year 1920-21.

**District Boards.**—A further stage was reached in the withdrawal of official internal control over District Boards. In the preceding two years all but five District Boards secured the right of electing their own Chairmen; in the year under report this privilege was extended to the remaining five. In 20 boards the elective element was raised from one-half to two-thirds while the boards were also enlarged. The Darjeeling Road Cess Committee is giving place to a District Board on a popular basis, with three Local Boards, which are likely to possess a large measure of financial independence.

2. **Local Boards.**—The membership of Local Boards was increased, while three new boards were established. These bodies maintain village roads and are responsible for village sanitation, where these duties have not been transferred to Union Boards. In the Burdwan district they were also in charge of ferries and primary education; in Nadia they are also responsible for the maintenance of masonry wells. There is a tendency to transfer the functions of the Local Board to the new Union Boards, and in Burdwan, we are told, that as a result of this transfer frequent meetings on the part of the Sadar Local Board proved unnecessary. The place of the Local Board, if it is not to be eliminated in the framework of the local self-government system, will be a matter of cardinal importance when the amendment of the Local Self-Government Act is undertaken.

3. **Village Self-Government.**—A forward policy in the creation of Union Boards was accepted by Government; and by the close of the year nearly 1,600 Union Boards had been formed. Few will doubt that this movement—if it succeeds—is fraught with important issues in the political life of Bengal. There have been many failures, but some of these village committees, especially in the Dacca district, have shown vitality and energy, which are a hopeful augury of the growth of public spirit and civic responsibility. Some District Boards have taken a keen interest in the welfare of these new bodies; in Burdwan district over half a lakh was contributed towards their expenses from the district fund.

The District Boards, however, find their own resources quite inadequate for their expanding functions, and the success of the Union Boards must depend largely on their willingness to utilize their power of taxation. It is contended that the villagers cannot afford to pay taxes for the improvement of their unions, and it must be admitted that experience has not yet justified the

optimism, which held that the villager was shrewd enough to pay, if he saw that he was obtaining good value for his money in the shape of improved communications and sanitation.

The number of Union Committees declined in proportion as they gave place to Union Boards, but there were still 309 Union Committees working at the end of the year. In the Presidency Division the Rajibpore Union Committee, 24-Parganas, is singled out for special praise; its record of works shows the benefits which a public-spirited Chairman can obtain for the group of villages in which he labours. In reviewing Village Self-Government as a whole the Minister (Local Self-Government Department) feels constrained to travel beyond the annals of 1920-21 in referring to the deplorable set back, which the tender growth of village committees has of late received at the hands of the non-co-operator. In Midnapore district there was an organized campaign against the new Union Boards, and as Government had no desire to force these institutions on the villagers against their will orders have recently issued for the withdrawal of the Union Board system in that district. The old *chaukidari* panchayats have replaced them, and the clock has unfortunately been set back.

4. **Financial results.**—The receipts from all sources amounted to Rs. 122·7 lakhs against Rs. 129 lakhs in the preceding year, the decrease being mainly due to smaller receipts under deposits and advances and miscellaneous heads. There was also a corresponding decrease in the total disbursements which fell from Rs. 130·7 lakhs to Rs. 122·7 lakhs. The excess of current income over current expenditure amounting in the previous year to Rs. 38,000 was reduced to a deficit of about Rs. 4·8 lakhs. The closing balance at the end of the year amounted to Rs. 34·8 lakhs.

5. **Taxation.**—The incidence of taxation averaged 2 annas 6 pies a head for the whole Presidency, and varied in different districts from 1 anna 7 pies to 6 annas 8 pies.

6. **Education.**—The expenditure on education rose from Rs. 26·7 lakhs to Rs. 28·5 lakhs, and excluding the contributions received from Government and other sources and the fees and miscellaneous receipts, the sum contributed by District Boards from their own funds rose from Rs. 9½ lakhs to Rs. 11·3 lakhs. The Minister for Local Self-Government observes with satisfaction that the increase was mainly due to the greater attention paid by most District Boards to the expansion of primary education in rural areas. The number of upper and lower primary schools maintained and aided by District Boards rose from 37,871 to 39,078, of which 29,936 were boys' schools and 9,142 girls' schools; those actually maintained by the Boards increased from 2,909 to 3,010. Schemes for the development of primary education on the lines suggested by Mr. Biss were sanctioned for three unions in the district of Khulna, and a grant of Rs. 8,000 for capital expenditure was made by Government towards the execution of the schemes. Female education made a satisfactory stride during the year; the number of schools increased by 600 and the number of pupils by 9,000. A sub-committee of seven lady members was formed in Khulna to advise the District Board in matters relating to the education of girls. Technical and industrial education continued to receive special attention. Two new weaving schools were started with the aid of District Boards, viz., one at Midnapore and the other at Tantipara in Birbhum. The District Board of Khulna also decided to open a district weaving school as an experimental measure.

7. **Medical relief and public health.**—The expenditure under these heads aggregated Rs. 11·7 lakhs against Rs. 10·5 lakhs of the preceding year. In nearly all districts definite programmes have been laid down for the gradual extension of dispensaries, and 22 new dispensaries were established during the year, making a total of 304. Two hundred and twenty-six dispensaries were in receipt of grants-in-aid from District Boards amounting to Rs. 2·77 lakhs. No dispensaries were maintained by any of the Boards in the Chittagong Division, which however, made grants-in-aid amounting to

Rs. 1.13 lakhs to 55 dispensaries. Eleven temporary dispensaries were maintained by the Burdwan District Board and three by the Birbhum District Board to combat epidemics of malaria and cholera. The opinion is gaining ground that District Boards should cut adrift from the long-accepted policy of constructing dispensary buildings of the old expensive type; the means for affording relief to the masses can be quickly multiplied if it is once admitted that buildings of the cheap type on which private dwellings in rural areas are constructed may serve as efficient centres for a medical agency. The Midnapore District Board's scheme for providing a network of dispensaries on these lines within the next ten years commends itself to the Minister and steps are being taken to modify the rules under which buildings must at present be designed after a costly standard type.

In Khulna 20 anti-malarial leagues were established under the general control and guidance of the Health Officer. The members are enrolled as unpaid voluntary workers in the anti-mosquito campaign and the distribution of quinine. The subsidization of medical practitioners—initiated in Jessore—was approved in Midnapore, Howrah, Khulna and Dacca; in the Midnapore district four doctors, who each receive from the Board a subsidy of Rs. 35 per mensem *plus* Rs. 5 as house-rent, have now begun work. In the 24-Parganas subsidies of Rs. 30 per mensem were offered, but no doctors could be obtained; a similar report comes from Nadia, where subsidies of Rs. 35 per mensem were offered. In Dacca five doctors were obtained on subsidies of Rs. 35 per mensem; they are required to visit schools within a radius of 5 miles of their centres in order to give simple courses of instruction on personal hygiene and sanitation. In Jessore the Board has been able to withdraw its subsidies from established practitioners, but owing to the reduction of the rates of subsidies no suitable doctors were available for the new centres. The establishment of an *Ayurvedic* dispensary by this District Board attracted great interest. It is reported to have made some mark as a medical institution suitable for the treatment of chronic diseases.

The usual petty sanitary works, such as the removal of jungle, clearing roadside and village drains, filling up insanitary ditches, etc., were carried on through the agency of Local Boards, Union Boards and Union Committees.

In India the deplorable waste of life from preventable diseases is a commonplace, and in the Howrah Sadar subdivision a demonstration of anti-cholera measures was carried out at Government cost. The experiment is thus described by the Commissioner:—

“Six sanitary inspectors were placed in six thanas with a sub-assistant surgeon as their supervisor, while the entire operation was in charge of the Health Officer. The inspectors were provided with bleaching powder, bycol, cholera literature and cholera posters. They visited police-stations once a day and as soon as they came to know of any outbreak of cholera they proceeded at once to the spot and disinfected rooms, buildings, soiled cloths, etc., while they also gave the occupiers of the house and the neighbours necessary instructions and sterilised tanks with bleaching powder where necessary. They distributed cholera literature among the people and published posters at prominent places dealing with the causes and prevention of cholera. The inspectors tried to get information from all available sources and principally through the Presidents of Union Boards, the idea being to check the disease in the very beginning.”

It is reported that since the commencement of the campaign the death-rate from cholera has been appreciably reduced. Measures of this kind cannot, however, be at once improvised when epidemics occur; it is desirable that District Health Officers should prepare the way for such campaigns well in advance by constant anti-cholera propaganda and by dealing promptly with small sporadic epidemics. If the efficacy of preventive

measures is thus demonstrated throughout the year, it will be easier for a special staff to work on a larger scale, when more severe epidemics occur. Temporary itinerant doctors such as were employed in several parts of the Rajshahi Division, if their activities are properly organized and trained, form a useful nucleus for a special staff of this kind. The Minister is glad to find that District Health Officers have to some extent realized the paramount importance of simple public health propaganda at the present time. In Birbhum pamphlets containing instructions for the prevention and treatment of cholera, small-pox and influenza were distributed through the agency of the Presidents of Union Boards, and in Bankura doctors were deputed to inspect and treat pilgrim traffic from Puri.

During the year the Vaccination Act was extended to all the areas administered by the District Boards in the Burdwan Division, and the system of free vaccination was in force in the districts of Burdwan, Birbhum and Howrah. The Health Officer, Howrah, held several magic lantern demonstrations to explain the benefits of vaccination to the masses. The Mymensingh District Board had a staff of 56 vaccinators including 4 women operators to attend to the *pardanishin*. Considerable attention was paid to vaccination in the Patuakhali subdivision, the number of persons vaccinated including those vaccinated in the preceding year was about 32 per cent. of the population.

As regards works of sanitation, it is noteworthy that the Bakarganj District Board spent no less than Rs. 52,248 in the excavation and re-excavation of khals; this work is said to have had a marked effect on the sanitation of the areas concerned.

**General.**—On the whole, there seems ground for believing that local bodies have a keen appreciation of their obligations in the matter of public health, but the inadequacy of their funds is a constant handicap. The Minister is glad to observe a general tendency amongst District Boards to concentrate their activities on the following lines :—

- (1) an extension of medical relief by the creation of new dispensaries and the subsidizing of rural doctors who require aid until they can build up a practice ;
- (2) the organization of preventive measures, combined with treatment, in the case of epidemics ;
- (3) the improvement of vaccination work ; and
- (4) public health propaganda, in which Health Officers should take a leading part.

He is satisfied that on these lines much valuable work can be done, and has now under consideration the question of the extent to which Government can assist the Boards in these matters.

8. **Veterinary.**—The charges under this head amounted to Rs. 1,36,000 against Rs. 1,12,000 of the preceding year. The veterinary assistants continued to do useful work by visiting villages affected by cattle disease and treating the cattle in villages and at hospitals. There were outbreaks of cattle diseases in the districts of Bankura, Midnapore, Bakarganj and Jessore. In Bakarganj there was a severe outbreak of rinderpest which carried off thousands of cattle and crippled the cultivators. A veterinary inspector has recently been placed in charge of this district and of the Khulna and Jessore districts by the Veterinary Department. In Nadia and Khulna veterinary committees were formed by veterinary assistants with a view to secure co-operation in their work.

9. **Civil works.**—The total expenditure under this head, which includes the sums spent on water-supply and drainage, rose from Rs. 60.3 lakhs to Rs. 61.6 lakhs. The outlay on buildings and tools and plant increased by 2.5 lakhs, but that on communications and water-supply decreased by Rs. 1.6 lakhs and 1.2 lakhs, respectively. The decrease was in some cases due to

scarcity of labour, but its main cause was the shortage of railway wagons which rendered it impossible to obtain either metal for the roads or coal for burning bricks. As was to be expected under these conditions there were large lapses amounting in Birbhum and 24-Parganas to nearly one-fourth of the total allotment for civil works. The District Boards of Howrah and Khulna allowed over 19 per cent. of the allotment to lapse and four other Boards, viz., Burdwan, Midnapore, Jessore and Noakhali had lapse of over 15 per cent. of the allotments. Taking the figures for the province as a whole the proportion of lapses rose from 11 to 12 per cent.

10. **Communications.**—The growth of water-hyacinth has increased to an alarming extent. By-laws were framed by several District Boards to secure the removal of this pest; some District Boards served notices on persons requiring them to remove the weed from their tanks or ponds, but the notices proved ineffective. A resolution was therefore passed by the District Board Conference of 1921 to the effect that Government should undertake legislation at once for the eradication of this nuisance in consultation with the Government of Assam. It is understood that the Assam Government is not at present prepared to take measures chargeable to provincial revenues; in Bengal a Committee has been appointed to advise Government on this matter.

Particular attention was paid by the District Board of Hooghly to the prevention of encroachment on roads. About 114 encroachment cases were reported by subordinate officers; in each case the encroachment was removed.

11. **Water-supply.**—The total expenditure amounted to about Rs. 5·8 lakhs, of which Rs. 5 lakhs were spent on original works. Taking the Presidency as a whole, the percentage of the Public Works Cess receipts spent on water-supply fell from 20 to 16·7 per cent., the decrease being most marked in Nadia, 24-Parganas, Mymensingh, Bakarganj, Noakhali and Bogra. On the other hand, there was a marked improvement in the districts of Bankura, Tippera, Hooghly, Murshidabad and Chittagong: in the two districts first named the percentage was more than 24 per cent. against 9·4 and 8·4, respectively, in the previous year. In Midnapore, where also the percentage showed a slight increase, the District Board allowed a large allotment to lapse mainly through the dilatory execution of works and delay in determining the rates at which labour should be paid. Tanks started in this district in 1919-20 remained unfinished even at the end of the year under review.

As in the preceding year, the whole of the amount spent on water-supply was met from current revenue, and the reports do not show that any District Board has considered seriously the suggestion made last year that capital works of this kind should be financed from loans.

12. **Drainage.**—The expenditure under this head amounted to Rs. 1·4 lakhs, of which Rs. 1·1 lakhs represented the expenditure incurred on account of the Jaboona project in Nadia and the Arool bil scheme in Jessore. The Nowi-Sunthi and the Jaboona projects were taken up by the District Board of the 24-Parganas. All these projects are under execution by the Public Works Department of Government. In other districts drainage works were confined chiefly to clearing roadside drains, re-excavating and deepening khals and the construction of bridges and culverts.

13. **Relief works.**—The expenditure fell from Rs. 1,65,000 to Rs. 7,000, of which Rs. 3,000 was spent by the Khulna District Board and the balance by the Noakhali District Board. No other District Boards had to undertake relief measures, a fact which indicates the absence of famine conditions in the province during the year. There were heavy floods in Midnapore, particularly in the Tamluk subdivision, which rendered many people homeless and caused acute distress. The District Board co-operated in the measures undertaken to relieve the distress.

14. **Closing balance.**—The actual closing balances decreased from Rs. 23·27 lakhs to Rs. 17·67 lakhs. Although the Burdwan District Board succeeded in reducing its balance by Rs. 1·75 lakhs, it closed the year with a balance of Rs. 2·64 lakhs for nearly half of which the Asansol Local Board was responsible. This is attributed to the difficulty of getting materials and also to the abnormal rise in the wages of labour. The accumulation of Rs. 2·62 lakhs in the case of the 24-Parganas is chiefly accounted for by the large unspent balances of the Government grant of Rs. 2 lakhs for the Nowi-Sunthi drainage scheme and of Rs. 59,041 for the improvement of the Jaboona river. The Rajshahi District Board reduced its balance by Rs. 50,000 to Rs. 17,766 and the balance in Chittagong decreased from Rs. 84,894 to the unduly low figure of Rs. 569. The Tippera, Faridpur and Dacca District Boards closed the year with debit balances of Rs. 16,221, Rs. 9,172 and Rs. 5,888, respectively, indicating overdrawals on the District Funds. In Faridpur and Dacca this was due to an overestimate of the cess receipts and might have been avoided had the District Boards revised their budgets a few months before the close of the year. The heavy fall in Tippera from the credit balance of Rs. 1,08,000 at the end of the previous year has not been explained. On the other hand, the balances rose to more than a lakh in Bakarganj and Khulna. In the former the rise was due to an unexpected increase in the cess receipts for the expenditure of which there was no budget provision, while in the latter district it was due partly to the receipt of a special Government grant of Rs. 15,000 for educational purpose and partly to heavy lapses under "Civil Works" and "Medical." In Midnapore and Howrah the balances were also heavy amounting in each case to nearly Rs. 1·5 lakhs. No explanation has been given in the case of Howrah, but in Midnapore there were heavy savings under "Civil Works."

15. **General remarks.**—While the heavy balances indicate defective budgeting or the dilatory execution of work, the universal cry of District Boards is the inadequacy of their revenues for their expanding functions. Labour and materials are more expensive, while the creation of Union Boards has placed a new charge on the District Fund. Important schemes have been drawn up for the expansion of primary education, extension of water supply, adoption of a comprehensive public health policy, improvement of communication, etc., but the financial difficulty has to many Boards appeared insuperable. The adoption of a loan policy will in some cases be possible, but an expansion of revenue is also necessary, and it is difficult to devise taxation, which will sufficiently augment the resources of the District Boards without proving oppressive to the tax-payers. This question was discussed at the Conference of the representatives of District Boards held in December 1919. The Conference was opposed to any increase in the cess, but approved a proposal to levy a tax on carts, carriages and horses in rural areas. This proposal has recently been revised, and enquiries are being made as to the approximate revenue such a tax might yield and the method of its assessment and collection.

Apart from finance, the work of the District Boards, many of which were under non-official Chairmen, was on the whole satisfactory; most of the non-official Chairmen showed great interest in their important duties, and there is no doubt that the District Boards have considerable vitality and are beginning to open up a field of useful public service to many of the ablest men in the mufassal. The Commissioner of the Presidency Division observes:—

"The general impression left on my mind after inspecting the District Board offices is that with the passing of the official Chairmen who worked in one groove, there has been an improvement in the variety of projects undertaken for the good of the people. The work of the Board is more attractive to members, and each non-official Chairman is conscientiously doing his best with the time at his command in the matter of touring."

16. The Minister desires to express his appreciation of the good work done by the following gentlemen, whose names have been mentioned in the

reports received from the Commissioners of Divisions, and to thank them for their services :—

## DEPARTMENT OF STATISTICS, INDIA.

### CALCUTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade by all routes, *i.e.*, by rail, river, canal, road, and sea, of the Calcutta block\* in certain selected articles during the eleven months, April, 1921, to February, 1922, as compared with the corresponding period of 1920-21 and 1919-20. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the Collectors of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

#### General Summary.

**Imports.**—The imports of rice, including paddy†, into Calcutta\* by rail, river, canal, road, and sea (coastwise) during the eleven months, April, 1921, to February, 1922, amounted to 13,862,000 maunds, as against 11,563,000 maunds in the corresponding period of the preceding year,—an increase of 2,299,000 maunds or 20 per cent, being chiefly due to larger imports of rice from Burma. There was a decrease of 26 per cent in the imports of coal and coke (93,672,000 maunds as against 125,888,000 maunds a year ago). The value of the imports by rail, river, road, and sea (coastwise) of Indian cotton piecegoods showed a decrease of 7 per cent, the total value amounting to Rs. 10,03 lakhs as against Rs. 10,74 lakhs in 1920-21. The quantity of indigo imported during the eleven months, April, 1921, to February, 1922, decreased from 11,671 maunds last year to 8,458 maunds. The imports of raw jute amounted to 3,857,000 bales as against 5,065,000 bales,—a decrease of 1,208,000 bales or 24 per cent. The importations of gunny bags also showed a decrease of 106 million bags (260 million bags against 366 millions in the preceding year). The total imports of oilseeds (linseed and rape and mustard seed) increased by 413,000 maunds, or 7 per cent, from 5,604,000 maunds to 6,017,000 maunds, but those of sugar declined by 264,000 maunds, or 34 per cent, from 780,000 maunds to 516,000 maunds. The imports of tea increased from 2,094,000 maunds to 2,307,000 maunds, an increase of 213,000 maunds or 10 per cent.

**Exports.**—The value of the exports of cotton piecegoods, foreign, from Calcutta\* by all routes during the eleven months, April, 1921, to February, 1922, fell by 29 per cent from Rs. 22,93 lakhs to Rs. 16,40 lakhs. The exports of gunny bags (including the exports by sea to foreign countries) decreased from 1,213 million to 966 million bags, but the shipments of gunny bags to other Indian ports increased from 52 to 71 millions in number in the period under review. The quantity of kerosene oil despatched from Calcutta and Budge-Budge by internal routes and by sea (coastwise) also rose from 4,931,000 maunds to 5,030,000 maunds, an increase of 99,000 maunds or 2 per cent.

\* The Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.

† One maund of paddy is equivalent to 25 seers of rice.

### LIBERALITY OF RAI SAHEB TULSI DAS.

No. 1324Medl., dated Calcutta, the 5th May 1922.

From—S. W. GOODE, ESQ., I.C.S., Secretary to the Government of Bengal, Local Self-Government Department, (offg.).

To—The Commissioner of the Burdwan Division.

Minister in charge : The Hon'ble Sir S. N. Banarji, Kt.

WITH reference to your letter No. 255J.G., dated the 14th April 1922, in which you report that Rai Saheb Tulsi Das, Kumar of Sultanpur, in the district of Burdwan, has made a donation of Rs. 15,000 for the construction of an in-door hospital at Sultanpur, I am directed to request that you will be so good as to convey to the donor the thanks of Government for his liberality and public spirit.

**RESOLUTION ON THE BUDGET ESTIMATES OF INCOME AND  
EXPENDITURE OF THE HOWRAH BRIDGE FOR THE YEAR  
1922-23.**

**GOVERNMENT OF BENGAL.**

**MARINE DEPARTMENT.**

DARJEELING, THE 1ST MAY 1922.

**RESOLUTION—No. 1T-Marine.**

**READ—**

The budget estimates of Income and Expenditure of the Howrah Bridge for the year 1922-23.

**Receipts.**—The receipts for the year are estimated to be Rs. 3,90,138 as against the revised estimate of last year of Rs. 3,90,110. The principal source of revenue is, from receipts from the East Indian Railway traffic, estimated at Rs. 2,75,000, the amount shown in the revised estimate of 1921-22.

**Expenditure.**—The estimate of total expenditure for the year is Rs. 4,39,119, which is Rs. 6,120 less than the revised estimate of the preceding year. Increases in expenditure are chiefly under the heads "Establishment," "Stores" and "Interest on Overdraft." The increase of "Expenditure" over "Income" for the year, viz., Rs. 48,981, raises the estimated debt of the Bridge to the Port Commissioners to Rs. 5,33,525 on the 31st March 1923, as compared with Rs. 4,31,207 on the 31st March 1922. The Governor in Council notes with concern this increase in the debt of the Bridge Fund to the Port Commissioners. It is not advisable at this stage to revise the scale of contributions, but the liquidation of this debt will be a matter for consideration in connection with the proposals for financing the new bridge.

2. The Governor in Council approves the budget estimate under section 21 of the Howrah Bridge Act, 1871.

By order of the Governor in Council,

H. E. SPRY,

*Secretary to the Government of Bengal (offg.).*

**DEPARTMENT OF AGRICULTURE, BENGAL.**

**Third and Final Forecast of the Spring Oilseed Crops of Bengal, 1921-22.**

(NOTE.—On an average of the five years ending 1919-20, the area under linseed in Bengal has represented some 5·3 per cent., and that under rape and mustard 19·0 per cent. of the total area under these crops in British India.)

**Character of the Season.**—As reported in the preceding two forecasts, the rainfall at the beginning was adequate for the preparatory operations throughout the Presidency except in parts of West Bengal. Since then, with the exception of scanty rain in January and at the beginning of February, which was too late, the weather has been exceptionally dry, and the continued drought adversely affected the crops more specially in the western districts. As a whole, therefore, the season may be regarded as only fair for these crops this year.

**Area Sown.**—The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 1,059,300 acres this year as against 1,35,800 acres of last year.

**Outturn.**—According to the estimates of the District Officers, the provincial outturn of the different oilseed crops works out at 73 per cent. of the normal against 77 per cent. last year.

Taking  $5\frac{1}{4}$  maunds as the normal rate of yield per acre for linseed, 6 maunds for rape and mustard and  $4\frac{1}{4}$  maunds for other oilseeds, the total yield for the province is estimated at 167,600 tons this year against 172,500 tons last year.

The decrease in area compared with last year was due to unfavourable weather conditions at sowing time. Continued drought stunted the growth of the crops and the outturn, consequently, fell much below the normal.

Khulna ...	Linseed ... ..	900	200	100	67	67	End of January. Normal. End of January. Normal. End of February. Normal.	The decrease in area was due to want of rain at sowing time especially in the Sadar subdivision. The weather was not favourable for want of rain which retarded the growth of the crops and consequently the outturn was much below the normal.
	Rape and mustard ...	29,700	10,300	5,500	92	75

Burdwan ...	Linseed ... ..	2,900§	6,100	5,500	58	58	Middle of February. Normal.	The decrease in area was due to want of rain at sowing time. At sowing time, there was good moisture in the soil in most places but subsequent absence of rain retarded the growth of the crops and caused some damage. Hence the outturn was much below the normal.
	Rape and mustard ...	6,800§	8,000	6,400	58	58

## DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 3rd May 1922.

**Summary.**—Light rainfall was nearly general throughout the Presidency. It has facilitated the agricultural operations and has been beneficial to standing crops generally. More rain, however, is needed especially in parts of Burdwan and Rajshahi Divisions. Harvesting of spring crops is over. The average price of common rice for the province has risen by about 1·11 per cent. as compared with that of the previous week.
